Flight O-O is a challenging exciting experience where groups compete within their role as well as supporting the team members playing their role. The key players involved are the Air Traffic Control, Pilots and Co-Pilots, Passengers and Rescuers. Each group is responsible for its own specific tasks and success factors. Flight O-O fosters problem-solving skills and perspective-taking, allowing individuals to walk in fellow team members' shoes. Lots of fun, lots of dialogue and lots of activity.

### **T.E.A.M. Challenge -**

#### **Tomatoes, Eggplants, Asparagus, Mangos**

One of the best ways to bring groups of people together is by understanding their personalities. In the T.E.A.M Challenge, participants are assigned a fruit or vegetable and will take on the qualities of the food and get a chance to see how labeling helps or hinders group cohesiveness. There various tasks each team must work on – each one a building a very specific skill. A key element of this event is the emphasis on dealing with change and the importance of collaboration in times of crisis.

## TEAM BUILDING EVENTS

The ability of teams to perform at high levels and adapt quickly to escalating demands largely determine an organization's success.

More than ever, in today's world, organizational success depends on people working together *effectively*. The pressure to communicate productively, quickly turn ideas into profitable action, and consistently deliver results never decreases. People who work together from a clear understanding of personal strengths and an appreciation of the differences in others will be the foundation of success in the future.
